Categories	Duration	Total Enrolled	Last Update
Linux	120h	0	November 24, 2020

## About Course

The RHCSA certification is designed for experienced Red Hat administrators and is required by some organizations to meet U.S. Department of Defense Directive 8570. It's also a prerequisite credential for the Red Hat Certified Engineer (RHCE). Red Hat recommends three training classes to prepare for the RHCSA certification. The Windows admin classes are Red Hat System Administration I (RH124) and Red Hat System Administration II (RH134). Candidates may also take a Linux/UNIX admin class – RHCSA Rapid Track Course RH199 – to prepare for the RHCSA exam. To obtain RHCSA certification, candidates must pass the 2.5 hour RHCSA Exam (EX200).
